

COMPANY VISION

HIGOLD'S MISSION

Strive for creating a healthy and satisfying lifestyle for human beings.

Rather than just a simple supply and demand company, Higold's ideology is to provide a better and elegant lifestyle with our products. With our unique and innovative product designs, our outdoor furniture gives our customers a better reason to stay outdoors.

HIGOLD'S CORE VALUE

Cooperative, Win-Win, Creative and Leading

As an industry innovator, we wish to have more partners to join us in this great area to achieve a win-win situation by optimizing respective strength and integrating resources; We stick to innovate and sustain business operation with a persistent vigour and vitality, to keep the advantage in being a leading enterprise and to always lead people to a better lifestyle.

HIGOLD'S OBJECTIVE

Create Higold as an international brand of outdoor furniture and industry innovation leader

With our product's design, innovation, quality and service, we have been increasing the value of Higold's international reputation in the outdoor furniture industry. As a result, customers are able to enjoy the quality and satisfaction of our products. Higold will always be the innovation leader and set as the benchmark in the industry.

COMPANY HISTORY

2005-2007 Underway Phase

2005

Higold Outdoor Furniture Company—member of Higold Group, was officially established in 2005 as an outdoor furniture manufacturer, with an area of 12,000m² and 120 employees and with rattan furniture as the main product. Started off as an OEM manufacturer, our quality and our service attracted a lot of trading and export companies as clients. As a result, we built a reputation for ourselves and was claimed the most potential outdoor furniture manufacturer in China.

2006

A new building with 8,000m² was built to meet the extension of product to stainless steel, textile and teak items giving our clients more alternatives and choices. At this point, staff members increased from 120 to 250. Through many export companies, our products were exported to Sweden, Netherlands, Germany, Spain, France, Italy, and Austria giving our company a trustworthy and solid name in the outdoor furniture industry. Hartman (Netherlands), Vip Lounge (Switzerland), Harvey Norman (Australia) and other end customers express high agreement on Higold product quality.

2007

In order to further expand and stabilize our status and name in the market, Higold's shareholders and management decided to collaborate with another powerful company, all the overseas orders were managed through this company. The focus for Higold turned to inner improvements.

2008-2009 Transition Phase

2008

In 2008, a new 30,000m² plant was built and added into our property. Thus, we once again increased our staff members from 250 to 600. At the same year, a fully-automatic spraying line was launched and we successfully obtained ISO9001 quality management system certification which secures Higold as a leading manufacturer for Outdoor Furniture.

2009

In 2009, we decided to expand our position in the market and began with our own design. Thus a very strong R&D team was set up and with the designers from various countries, mostly European and Australian countries. From development and design to production management and sales and marketing, our corporate core values are demonstrated. The furniture designs are patented and copyrighted. In the same year, Higold set up a showroom of 2,000m² for an outdoor exhibition of furniture and started introducing and using a series of modern systems and models, including ERP(Enterprise Resource Planning), PDM(Product Data Management), CRM(Customer Relationship Management) and EPM(Enterprise Project Management) to boost company competitive edge.

2010-2013 Rapid Development Stage

2010

Staff members increased to 800 and another 2,000m² was also added for exhibition of the latest conceptual products. In order to promote lean production and create international fine products, we invited an International Lean Production Consulting Company from Taiwan to be our consultant for production management. In September, we attended our first SPOGA exhibition show in Germany. During the show, our innovative design, high-end quality, and excellent service was the center of attention and won the trust and eyes in the outdoor furniture industry. Shortly after, world's best-known companies like Kaja Horeca Interieurs of Netherlands, XXXLUTZ of Austria, Boss Garden of Turkey, The Hakoach Furniture Group of Israel, Destiny Deutschland GmbH of Germany, Lottus (Asia)Ltd. and International trading company of Mexico, Surrey Purple Ltd. of England, Delta Co., Ltd of Russia, OA Lissone of Italy, Furniture Solutions of Australia, In & Out Things and Blue Square of USA became regular customers of Higold.

2011

Higold continued to invest much in developing and expanding furniture designs, and a series of impressive innovative products emerged which include Amigo, Babylon, and Teakman collection. In April, Iberostar Hotels & Resorts and Alfa Importaciones S.L. of Spain, GROUPE Mr.Bricolage of France, Tri-star Décor of Morocco, Club Piscine of Canada and Point Vert Import-export of Switzerland placed orders to Higold. In September, Higold had again become the center of attention in SPOGA exhibition show in Germany with its 240m² booth. In November, OBI Group of Germany and HUDSON'S BAY, a huge and oldest commercial corporation in North America, came to visit Higold and as a result started doing business together. Costco, a world-wide well-known wholesale corporation, also started a relationship with Higold. Meanwhile, we acquired the BSCI report with a "good" result, which further secures Higold as a leading manufacturer. In order to boost the international reputation of Higold brand, we began to strengthen cooperation with multiple close partners, including Kaja Horeca Interieurs of Netherlands, the Hakoach Furniture Group of Israel, Externus of Mexico, Milano of Iran, Tri-star of Morocco, Sourcing Direct of New Zealand, and they all came again to visit Higold and thus started a further cooperation with Higold. Looking ahead, Higold will keep learning, desiring for change and being innovative and give full play to its advantages in innovation based on the core value of being an industry innovation leader, and commit to become a worldwide respected and trusted lean & innovation enterprise.

2012-2013

Higold increased the investment in exhibitions, and earned the opportunity to cooperate with Landmann and Metro from Germany. In 2012, Higold grew very fast and achieved approval from Costco in processing its orders. In 2013, we attended the 31st ClIFF fair and learned to know more clients. In April, we signed the contract for the 1st exclusive shop in Foshan, and it sets a significant milestone for developing local market. Moreover, Higold also attended the 8th Shanghai(China) International outdoor furniture and Leisure Productss Expo in August and Spoga+ gafa fair 2013 in Köln in September. At the same year, Higold became the 1st outdoor furniture public listed company in China with the stock code 660542.

2014 All-round Innovation Stage

2014

Higold took different measures on innovation, like introducing various new product ranges and bettering the lean production from all perspectives, taking advantage of Kuka (Germany) Robot and Fonix(Sweden) welding technology in production, thus largely improving the production efficiency and offering better service to all clients. In March, Higold won the Reddot Award 2014 for its excellent design of Shenzhou X collection and became a world-wide honor to Higold and set a milestone in Higold history. In May, we attended Lawn and Garden Las Vegas 2014 and left good impressions to all visitors by our high quality designed collections. With a long and best follow-up service, we start to cooperate with another two well-known brands, COOP from Switzerland and DEHNER from Germany. More should be shared and be proud of is that a group of exclusive shops were set up at home and abroad. So far, there are 5 stores in Amsterdam and the area surrounded and 12 shops are well established in China. This not only completely promotes Higold original-designed products, but also laid a good foundation for becoming a world-wide well-known furniture brand.

2015 Brand Promotion Stage

2015

The brand promotion has largely stepped forward since the beginning of 2015 and it is greatly supported to set up agents at home and abroad. In the ClIFF fair of March, we signed up the exclusive contract with 5 clients from local market and 3 clients from overseas market, they are from Shanghai, Hangzhou, Xi'an, Zhengzhou, Kunming, Florida of U.S.A., Qatar and Australia. All the year round there will be more than 30 agents in China and 10 abroad. In April, the leadership paid a visit to most countries in Europe (e.g. Holland and Russia) & Turkey and concluded the discussion with two agents in Turkey and Russia respectively. In July, we will make decision among 5 clients to give authorization to the most competent one. In November, another exclusive shop with an area of over 600² will be opened close to Amsterdam and celebrities from the furniture business world will join the opening ceremony. To set up exclusive agents all over the world has not only enhanced the global influence of brand itself, but also well defines the company's mission and objective.

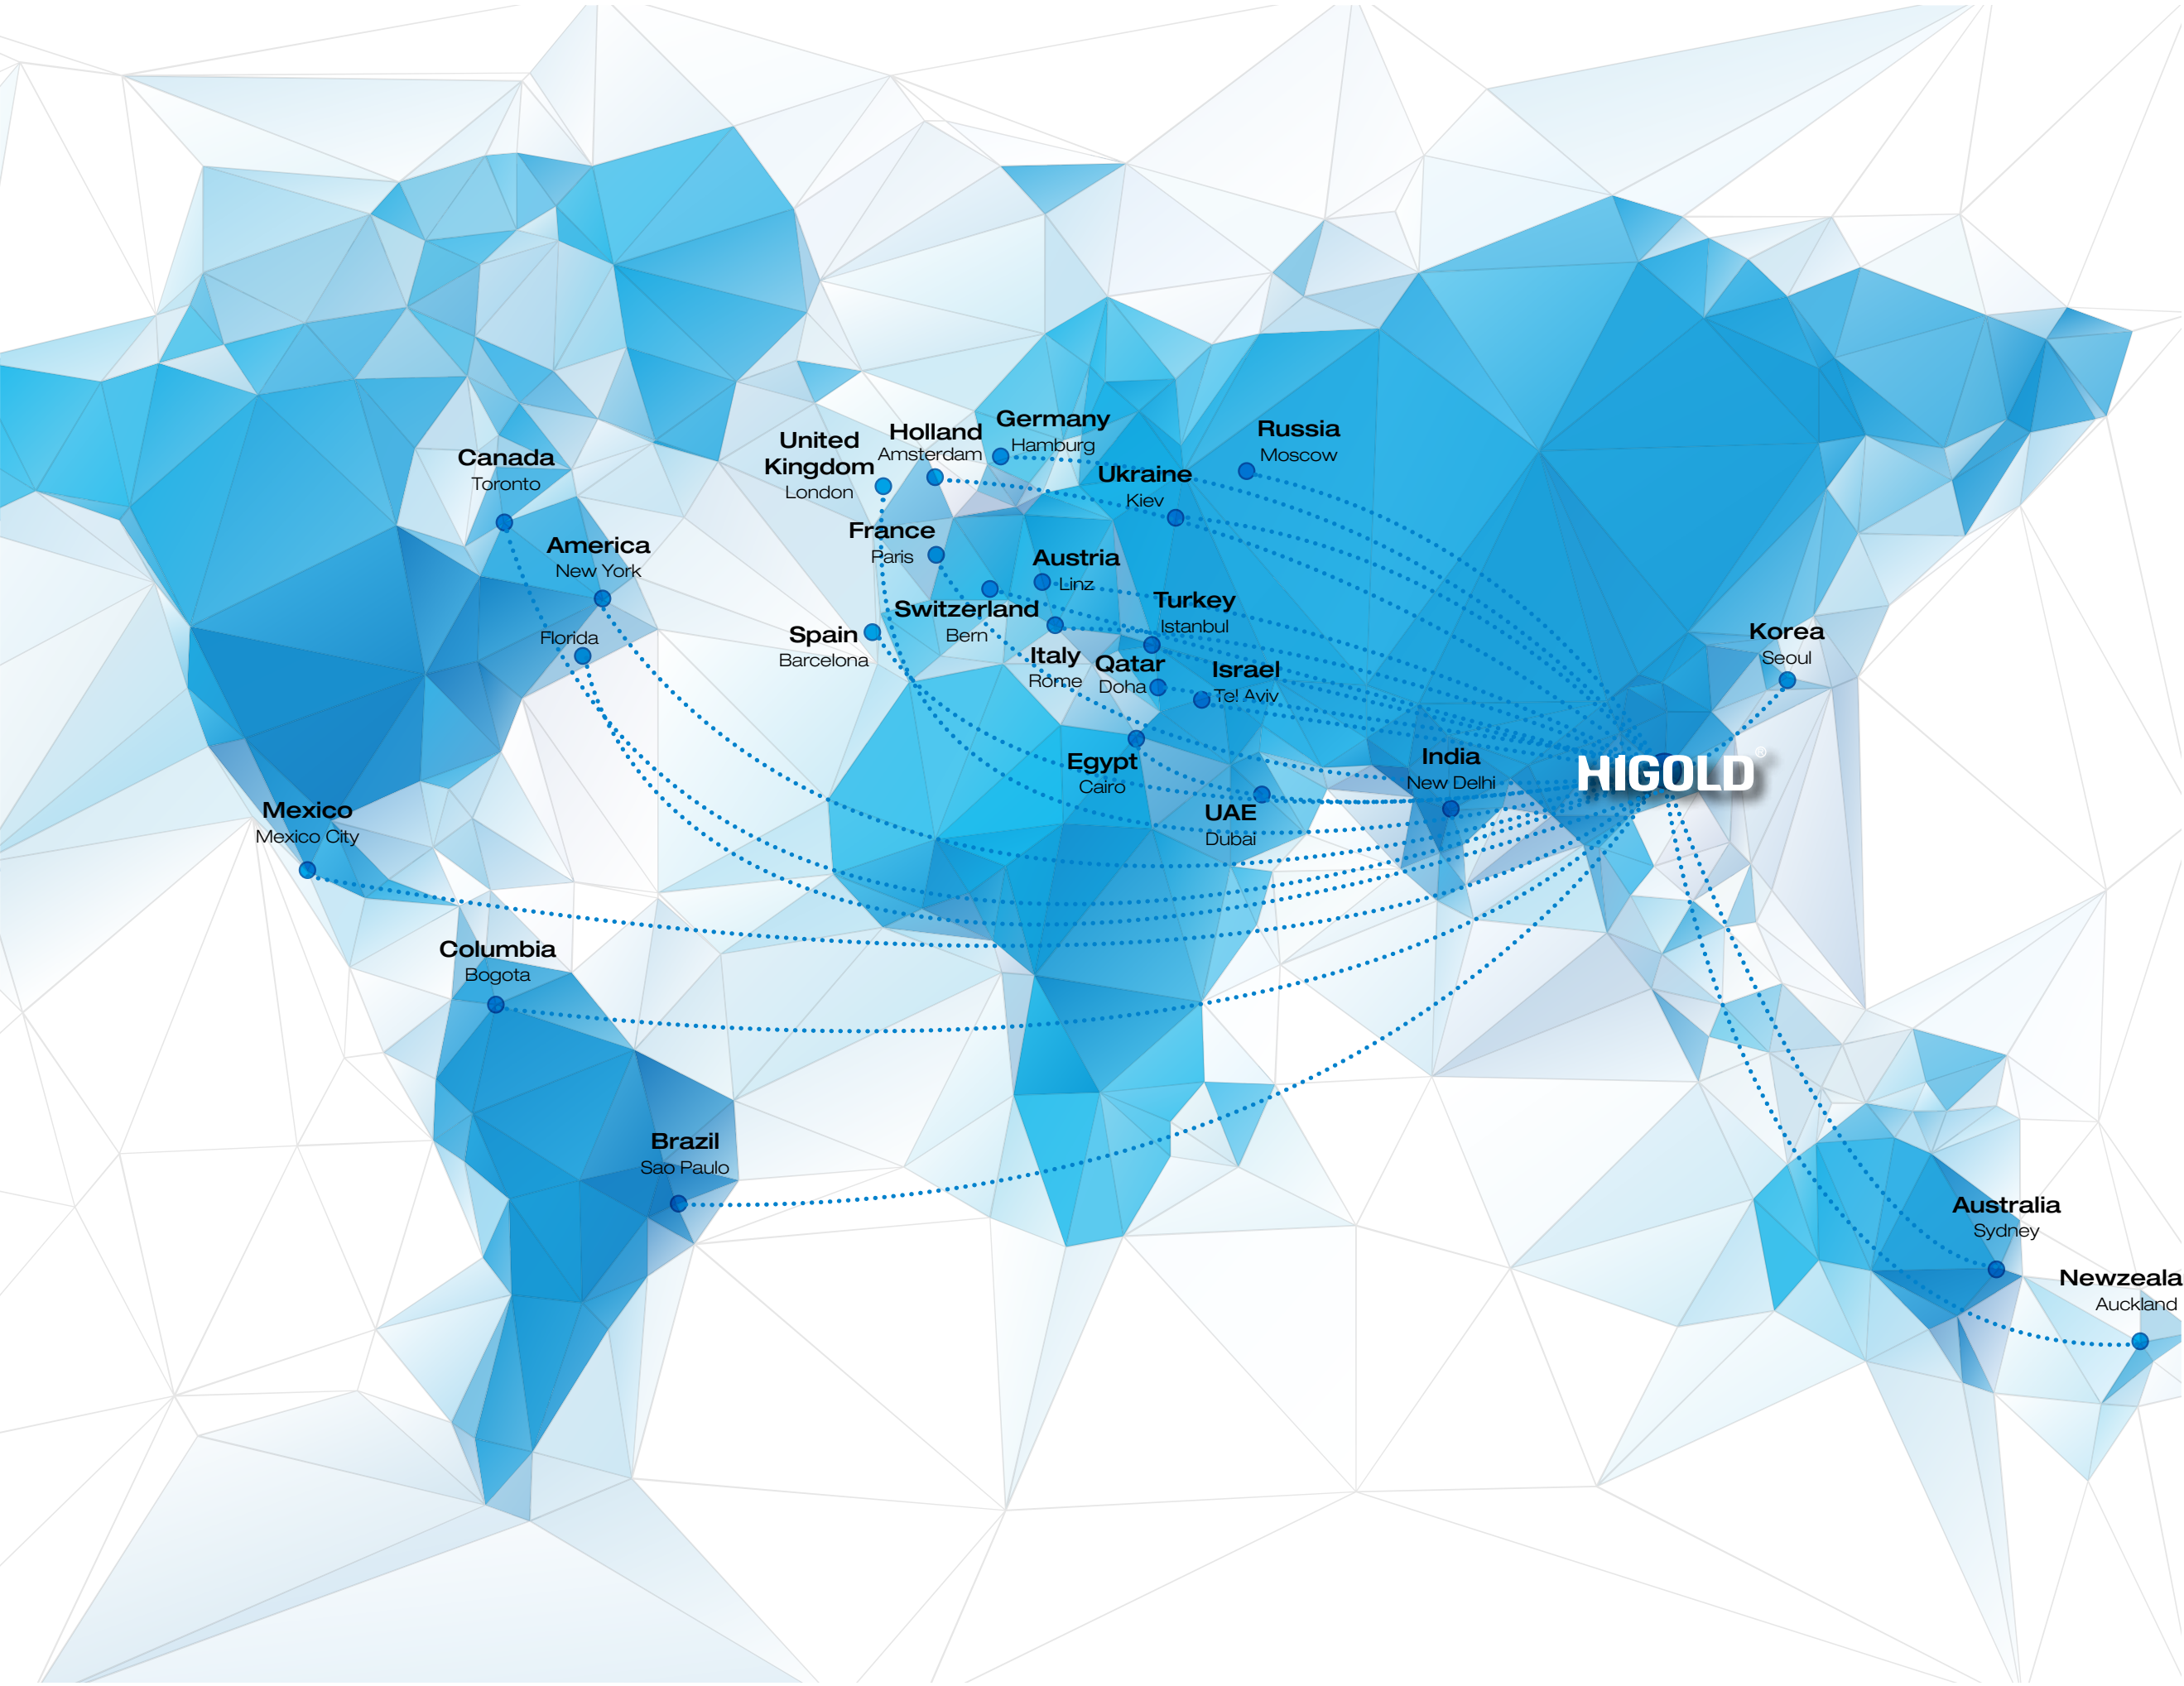

2016 Brand Development Stage

2016

The branding process has been booming in 2016. More than 40 Higold new furniture shops have been set up from both overseas and domestic markets, such as U.S.A., Canada, U.A.E., Spain, Norway, Slovakia, Czech, Malaysia and etc. from overseas market, and from local market it has covered all the capital cities and main areas. Westin hotel project of Malta, Sani Resorts Project from Greece and the Sunny Isles Apartment projects from Jade Beach, Florida and the Wyndham Hotel of Lihe, Sanya and etc. are among the main projects we have cooperated in 2016. We have joined in various big exhibitions, like Masion&Objet in January, Canton Fair in April and October, Spoga+gafa fair, Dubai Hotel fair and Chicago fair in September. Twelve brand-new collections have been developed and the designs are from world-wide well-known designers. In addition, Pininfarina designers have been invited to design our Group's new head office since June, which has enhanced the international branding image of Higold furniture company as well up to a higher level in terms of a long-run development. Moreover, Carrefour, Metro, Rona, Low's, Sam's Club and TJX and other big buyers are engaged in the cooperation with Higold, which has proved the comprehensive strength and the experience in working with well-known brands helps booming the brand reputation on and on.

AIRPORT

Designed by Nicolas Thomkins

AIRPORT collection is made of bend extruded T profile and corrugated aluminum sheets and the concept is from the facade of some old airplane. The seat weaving is conventional with straps for comfort and the cushions following the corrugated style make the whole set a perfect combination. The pure surface of the tube material has been nicely shown with the painted finish.

MATCH

Designed by Nicolas Thomkins

Match collection uses the style of Fabergé egg, which is one of a limited number of jeweled eggs created by Peter Carl Fabergé from Russia and generally made for imperial family. Match furniture collection also conveys the same idea of simplicity but stands out to become a kind of treasure by weaving open and diagonal on the frames, which catches the merit of the Fabergé pattern.

GREENWICH

Following the combination idea of York collection, GREENWICH creates another brand-new version by using textilene and teak wood. The textilene has been divided in separate parts but well connected with each other when fixing the teak inside. It seems that everything is independent but indeed it is interdependent, just like the relationship between humanbeings.

DIAMOND

The combination of teak and stainless steel has well defined the preciousness of DIAMOND collection. It is common to find teak with straight and regular shape but seldom to see the curved finish as well as the teak slats being fixed at different horizontal levels by S/S tubes only.

CLARK

Designed by Nicolas Thomkins

Clark collection is designed for reaching the comfort from simple structure. Look at the neat tubes, you will see there is no welding connection from the back and the joint has been well blended to each other which has seldom found in aluminum constructions of furniture. Another unique feature from Clark is that the tubes are embracing the weaving back which has never seen in the market with such creative application.

203960

BOWIE

Designed by Nicolas Thomkins

BOWIE has given a kind of clean and neat feeling by combining the flat woven material with anodised aluminum frame. The major comfort from Bowie chair or sofa is the inclination at the seaters and the good management of teak armrests. For Bowie tables, we have put extra aluminum mesh underneath the top to strongly give a support whenever the glass top is removed.

MONA

Designed by Nicolas Thomkins

Mona has given a kind of warm and relaxed feeling by its elegant outlook. The curving finish has been well defined here, just like a fair lady dressed in straitjacket. The "V" style weaving pattern makes it a clean and bright look. When coming to its armrest, you will feel its breath as there is no any tube inside just the weaving there, soft but strong enough. The back rest as well as the sitting part appropriately follows human's body and gives a good reason to rest and enjoy the moment. The good combination of the foam in the cushions has increased the comfort of the total set and makes the collection more of a cosy nest in the nature.

HIGHWAY

Designed by Nicolas Thomkins

Following the architectural facade, Highway has a clean construction base. The good combination of anodized aluminum legs with the wide weaving style creates an industrial outdoor atmosphere. The curved cushions used for back rest and seat can favor the emitting of the heat and enhance the comfort. The small pillows can be put under the armrest when it is getting a bit cold and can put away when it turns to be hot. It is knock down and can be packed with only one box, very easy to assemble and disassemble. The most impressive part of this collection is the inclination of the seat. People can feel very comfortable and relaxed as long as they sit in it. The solid alum. base of the sofa and the comfortable upholstery has made it possible to be used inside as well.

TULIP

With the name of Tulip, indeed the design should follow the idea of its shape, while there is a totally different story about it. The concept is based on the limulus and recalls people to take care of the ocean environment and the marine life. The combined weaving style makes the set more dynamic and flexible in outlook. The full weaving on the table top with flower shape indicates more decorative elements by itself.

GALAXY

Galaxy collection is an updated design of Shenzhou X collection. The combined weaving style indicates a more modern look. The base concept is similar to Shenzhou X sofa set. The furniture pieces can be used as single artifacts or they can be used in conjunction with each other to create numerous outdoor configurations. The collection offers a full suite to satisfy every outdoor relaxation requirement, from sleeping to eating to swinging. The user is fully equipped to fully enhance and enjoy their outdoor living environments to the fullest.

GENEVA

The name "Geneva" well defines the accuracy and the standard of building up this collection. The unique feature is the good combination and setting of three elements, textile, aluminum with powdercoating and the teak. The teak has been perfectly inserted in the alum. slot of the legs. And the teak on the table top is not with regular shape, which gradually becomes narrow at the final part. The clean and exquisite finish at each corner requires very high technique. This collection also conveys a strong architectural feeling which could be very interested to designers.

YORK

Using textilene, teak and white coating color to mix to make York very outstanding. The design is also very close to an indoor style. With a sharp color contrast in the sun, people can enjoy not only a beautiful sight but also a very warm feeling.

SHENZHOU X

A Dreamer in Space Exploration, Exploring the Secret of Nature

The inspiration of Shenzhou X comes from Shenzhou X spacecraft and its re-entry module. The design combines the idea of wide light brown wicker and exposed white coating color, which makes the frame clean and simple. Floating across the clouds, Shenzhou X is more like a sacred auto and lead people to a future outdoor lifestyle. Hung from ceiling, seen to be taking off into the sky, the openness and freedom naturally generate a different kind of beauty.

The unique design of Shenzhou X allows numerous configuration set-ups, in storage and in use. It is designed to be easily assembled and set up. The design has a special locking feature to hold the pieces securely together when in the stacked configuration. Top quality wicker, teakwood and fabrics withhold the ability to withstand outdoor conditions. When assembled, on the top you can find the coffee table and next to the coffee table is the upper weaving cover which can become a separate daybed by combining with the footstool. This completely demonstrates the idea of space-enviromental protection. It runs over with warmth and sweetness when the sunshine goes accross the wickers.

The idea of Shenzhou X also comes from the desire to create a unique collection of outdoor furniture. It represents a step forward and upwards in the outdoor furniture market. The design allows for a unique outdoor experience.

1. The overall forms are reminiscent of the great China spacecraft while also creating comfortable outdoor living structures.
2. Emphasis and exposure of the internal aluminium structure provides a sense of security to the user, it also creates a distinctive visual aesthetic.
3. Heavy duty aluminum frames provide a strong and secure structure. High quality woven wicker provides a strong solid structure and allows the users to trust fully in the end product
4. Ability to be stacked into complete units allows an attractive structure when not in use and makes the pieces efficient for storage.
5. The unit can be used as a single enclosed day bed or the units can be separated to create two open sofas with a separate coffee table and small lounge. The complete unit has the ability to be stacked for efficient transportation purposes and also to maintain space and create unique structures when the pieces are not in use.
6. The collection offers a full suite to satisfy every outdoor relaxation requirement, from sleeping to eating to swinging. The user is fully equipped to fully enhance and enjoy their outdoor living environments to the fullest.

Congratulations to Higold for its excellent design of Shenzhou X in winning Reddot Award 2014.

Reddot Award can date back to Year 1955, it is the most influential competition in the world-wide renowned competitions, and is named" Oscar Award" in the design world. It was set up by Design Zentrum Nordrhein Westfalen and it is with a history of more than 50 years. Every year over 60 countries and 10000 works are involved via the competition in product design, communication design and design concept. Awarded products can have the opportunity to be shown in the Reddot Museum in Essen, Germany and bestow the winner to attend the ceremony. Hereby we would like to express thanks to our R&D team and all Higold workers, this is a world-wide honor to Higold and a milestone in Higold history .

MOSCH

The design highlights of Mosch collection is a proper combination of triticum-look weaving style and the oval shape. This good combination well demonstrates the idea of Nature and offers a better reason for people to stay outdoor. Enjoy the sunshine with a glass of red wine, life is always full of joy.

SMART

SMART collection wins a large popularity due to its novel design of base. The complex shape and brushed aluminum slats makes it outstanding of common designs. Taking a seat and talking with a long lost friend, you will easily get relaxed from trivial matters.

PALACE

Just take seat in this new generation of armchair.
Combining a lively design on the one hand and a reticent appearance on the other hand,
PALACE series is a real work of art.
The bed is just like the Palace of the Ancient Egypt.
It's a most extraordinary addition to anyone's enjoyment of outdoor lifestyle pleasures.
